

AROMA ZONE

EXPERT NATUREL EN SOINS & BEAUTÉ

DECEMBER 2017 EDITION

The family adventure Aroma-Zone was born in 2000, inspired by *our admiration of the plants' power* and all of the treasures nature can give us.

True pioneer, Aroma-Zone was one of the first aromatherapy's information website and an essential oils online seller since 1999. Years later the idea of a crazy bet germinated in our Provençal premises: to come up with all that you need to *manufacture your own healthy, efficient and 100% natural cosmetics* ! And you are a growing number to subscribe to this concept.

Since the beginning, we are willing to propose *the best quality at a better price*, establishing lasting close ties with a network of devoted producers, in France and all over the world. Today, thanks to your *trust*, Aroma-Zone's adventure keeps on glowing every day and keeps on making available *the most beautiful natural extracts* for all, in a respectful approach of human beings and the planet.

Thanks!

Valérie, Anne et Pierre Vausselin, founders

Our commitments

1. Our essential oils are **100% pure**. They are carefully selected to meet strict specifications. We carry out chemical and physical analyses of each batch (refraction index, chirality, density, etc) and a chromatography test, so we can assure you of the botanical identity and biochemical characteristics of all our essential oils (EOBBD: Essential Oils Botanically and Biochemically Defined).

2. We only use **100% natural products, with no added preservatives or synthetic fragrances**. All our products are guided by strict specifications and supervised by our Quality laboratory.

3. We are working hand in hand with producers from all over the world. We are remunerating them at a fair price, we nurture **sustainable and fair trade**, and support traditional production chains.

4. We are committed to **the animals protection organization One Voice**. No product is tested on animals et no animal product or sub-product is used in the making of our products (except products from beehives, mare's milk, donkey's milk and silk proteins). We always check the animals' living conditions and ensure that the method of obtaining the product does not endanger the animals' welfare.

5. We are favouring **ingredients from ecological agriculture and certified organic** to preserve soils, air and water quality as much as the producers' health. Our ingredients are naturals and biodegradables.

6. We favour **local supplies to restrict the impact of transport on the environment** as well as the use of recycled and recyclable packings, warranty without bisphenol nor phtalates, (glass, recycled PET, cardboard) and product locally.

7. To protect your parcel's content, we are using **recycled crumpled paper** and biodegradable corn starch wedging particles that decompose in water without any toxic residual.

THE QUALITY AROMA-ZONE

The quality of our essential oils

The vast majority of our essential oils comes from :

- **wild plants**, a guarantee of the best possible quality for essential oils because as the plant has grown in its natural biotope, without interference from people, it produces the purest essential oil,
- or from **certified organic** plants farmed by independent groups,
- or from plants grown using **environmentally friendly** methods with no use of chemical products, when organic certification is not available or too costly.

The majority of our essential oils are extracted from **fresh plants at the place of harvesting** ; this allows us to extract whole and fresh essential oils from plants which have not been damaged by transport conditions or the haulage time.

Our essential oils are **pure and natural, whole, terpeneless and non-modified**.

They are fully defined (producer, botanical name, chemotype, country of origin), which is where the EOBBD mark comes from (Essential Oils Botanically and Biochemically Defined).

Our information labels guarantee full transparency of the nature of the essential oil you buy :

- botanical name of the plant
- chemotype (main biochemical molecules)
- distilled part
- exact origin of the plant
- cultivation type
- batch no. (guaranteeing traceability back to our supplier)
- expiry date

Each order is accompanied by essential oils precautions for use which must be read before using the essential oils.

Each batch of essential oils is tested by our laboratory which guarantees us the compliance of the chemical and physical criteria (density, refraction index, chirality, etc) of each oil, **its purity and its exact composition**.

So we have a gas **chromatography (Chemotyped Essential Oils)** for each batch.

These in-depth analyses guarantee the **quality and purity** of our essential oils.

The quality of our plant oils

We prefer **virgin plant oils, from the first cold pressing of wild plants or plants from certified organic farming**, extracted within a year and 100% pure. This extraction method, combined with how fresh the oil is, ensures you will receive very high quality oils with all their properties intact. These plant oils are analysed by an independent laboratory to assess the fatty acids composition in particular.

The quality of our hydrolates and other natural extracts

Aroma-Zone aromatic hydrolates are **highly concentrated, 100% pure and incredibly fresh** ; the majority comes from plants from certified organic farming. These hydrolates are fresh products and must be kept refrigerated.

The other extracts (powders, gums, waxes, etc) have been carefully selected and tested in order to offer you the best possible quality. All extracts and other products are tested by our quality assessment laboratory.

The quality of our certified organic natural cosmetics

Our cosmetic products are formulated by our cosmetic experts. They are made using natural components and with all the benefits of our first rate knowledge of raw materials. The high concentration of active ingredients increases efficacy. They have been through a detailed assessment and testing process by an internal panel of consumers to perfect the formulas. Our production team pays particularly close attention to complying with cosmetic production best practices, particularly with regard to hygiene standards. The procedures we apply allow us to guarantee full traceability for each batch of products. Because we produce in small batches to provide a sales stock of two to three months, our products are incredibly fresh. All our products are painstakingly tested in line with a strict technical specification created by our quality manager and our pharmacist.

ESSENTIAL OILS

- **Very powerful** essential oil, may have a certain toxicity at high doses or after long-term use. Use with caution and for short periods.
- This essential oil may cause **photosensitivity**. Do not expose skin to sunshine after use.
- This essential oil can be **dermocaustic** (irritating to the skin) and/or **prone to cause allergic reactions**. Use highly diluted in a vegetable oil for skin application and always test on the inner elbow crease before use.

THE GREAT AROMATHERAPY GUIDE AND NATURAL BEAUTY TREATMENTS

A COMPLETE AND ILLUSTRATED 670-PAGE AROMATHERAPY BIBLE, COMBINING THE EXPERTISE OF AROMA-ZONE AND AUDE MAILLARD. THIS BOOK CONTAINS 350 ESSENTIAL OIL AND PLANT EXTRACT ADVICE SHEETS, 200 SIMPLE AND EFFECTIVE AROMATHERAPY FORMULAS, AND 100 SLOW BEAUTY RECIPES.

02731 14.90 €

AROMATHERAPY

Wholly written by Aude Maillard, renowned aromatologist and olfactotherapist, this section offers detailed aromatic formulas to remedy to all kinds of pains and everyday life problems.

More than 200 problems are listed, with for each:

- a description of the problem and its causes,
- one or more simple and effective aromatherapy formulas,
- the precise mode of use,
- precautions for use.

ALREADY MORE THAN 55 000 copies sold

NATURAL EXTRACTS

This part presents more than 350 natural extracts, each on a complete page, including an identity card of the extract, the properties and uses adapted to the extract (Health, Beauty, Wellbeing, Cooking ...), Precautions, and "Tips from the Expert!" to use the extracts very simply in practice.

Extracts are classified by family type: essential oils, hydrolats, vegetable oils, oily butters and macerates, plant and algae powders, CO, extracts, clays and natural salts. For each family, you will find a quick presentation describing how to obtain and a small user guide in the form of a very practical table.

WELLNESS BEAUTY RECIPES

This part offers more than 100 beauty and wellness recipes 100% natural and ultra-simple to take care of you daily with natural extracts.

Classified by type of cares, you will find recipes adapted to all types of skin and hair to build your complete beauty routine: make-up removers, lotions, cares, masks, hair oils, conditioners, dry shampoos, rinse lotions, toothpastes, hazes ...

This part ends with synergies of essential oils to diffuse, to perfume your rooms, clean air, soothe spirit and delight your senses.

AROMATHERAPY BOOKS

AROMATIC EXTRACTS

THIS SELECTION OF ORGANIC AND NATURAL AROMATIC EXTRACTS FORMS AN EXQUISITE RANGE OF NATURAL SCENTS AND FLAVOURS TO BRIGHTEN OR PERFUME YOUR HOME MADE COSMETICS.

APRICOT

A gourmet, sunkissed aroma for beautiful lip balms, body oils and lotions, and shower gels.

00991 10 ml 3.20 €

ORGANIC PINEAPPLE

The fruity citrus scent is the true representation of pineapple flesh. As delicious in cosmetics as in the kitchen, it makes exotic fragrances and aromas.

01220 10 ml 3.50 €

ORGANIC CHERRY ALMOND

Its fragrance conjures up delicious cherry mixed with the sweet scent of bitter almond, typical of the kernels. A highly original scent!

01222 10 ml 3.50 €

ORGANIC CARAMEL

Its sweet and gourmet scent awakens the senses and taste buds, in your preparations of gloss, creams, balms, shower gels ...

00993 10 ml 2.90 €

ORGANIC CHOCOLATE

This is a delicious warm chocolate scent. To use with cocoa butter or blend with mint or citrus fruits to create mouth-watering, chocolatey treatments.

01001 10 ml 3.90 €

COCONUT

The mouth-watering scent of paradise, this extract mixes well with coconut oil for your balms and body treatments.

00997 10 ml 3.20 €

ORGANIC RASPBERRY

Sweet and slightly zesty, such a treat for composing lip balm or lip-gloss. To marry with other scents to embellish your "home" shower gels.

00990 10 ml 3.50 €

ORGANIC STRAWBERRY

This extract is perfect to bring a note of red fruits in your preparations of shower gels, colognes or room fragrances. It's also excellent for use in food, to flavour yoghurts.

01224 10 ml 3.80 €

WILD STRAWBERRY

This unusual extract gives an original sweet and subtle note to cosmetic products and eau de toilette. It's also a go-to product for giving that final touch to sorbets and cakes, etc.

01226 10 ml 2.90 € 01227 30 ml 4.90 €

PASSION FRUIT

Its powerful fragrance is perfect for exotic perfumes. Its aroma is also suitable for making delicious cocktails, sorbets, ice creams, and fruit salads.

01230 10 ml 3.50 €

ORGANIC MANGO

This extract is as exotic and gourmet as it is sweet and fresh. Exquisite for an exotic touch in hair balm or a "homemade" shower gel

00996 10 ml 3.50 €

MELON

Its notes of ripe melon will delight melon fans. It is excellent for creating yellow fruit notes in perfumes. It is also very popular for adding to cocktails and sorbets.

01228 10 ml 2.90 €

ORGANIC BLUEBERRY

A lively, refined, and powerful fragrance, as well as a delicious flavour well suited to lip-preparations of gloss and balms.

00992 10 ml 3.20 €

NOUGAT

A sweet, sugary, almond and deliciously honeyed fragrance, coupled with a very popular deep, rich note to make your masks, scrubs and creams full-bodied and sweet.

01247 10 ml 2.90 €

GINGERBREAD

The natural gingerbread aroma is a real treat, and its warm, spicy, liqueur aromas are perfect for cosy preparations.

01248 10 ml 2.90 €

ORGANIC PEACH

Perfect for adding a natural note of yellow fruits to shower gels, creams and balms "home-made"; it blends beautifully with petitgrain. Use in the kitchen to flavour fruit salads and milkshakes, etc.

01232 10 ml 3.90 €

ORGANIC PEAR

The sweet fragrance of Williams pear makes a delicious combination with chocolate, lychee or vanilla. An essential extract for smooth and sweet creations.

01000 10 ml 2.90 €

ORGANIC VANILLA

Smooth, caramelised, and gourmet, this Bourbon de Madagascar Vanilla extract is easier to use than oloresin. It is ideal for adding a vanilla flavour to your products "home-made" ..

02915 5 ml 4.90 €

TENSIOACTIVES

A RANGE OF VERY SWEET VEGETABLE ORIGIN TENSIOACTIVES TO MAKE YOUR LIQUID SOAPS, SHOWER GELS, LIQUID AND SOLID SHAMPOOS THAT RESPECTS YOUR SKIN AND THE ENVIRONMENT.

BABASSU FOAM

Derived from Babassu oil, this cosurfactant is **rich in unsaturated fatty acids and sterols**. It protects skin from harsh external elements, lathers into a **rich, creamy foam**, restores softness to hair, leaving locks easy to style.

01265 100 ml 2.90 € 01264 250 ml 4.90 €

GENTLE COCONUT

Derived from coconut oil, this **lipid-replenishing** active ingredient is used for its **softening and moisturising properties** in shower gels and shampoos designed for sensitive skin.

01262 250 ml 5.50 €

SODIUM COCO SULFATE

This tensioactive is **the key ingredient for making your solid shampoos**. It foams particularly well, making it pleasant to use and meaning vegetable butters or oils can be included in solid shampoos.

03035 50 g 1.50 € 02625 500 g 6.90 €

SODIUM LAUROYL SARCOSINATE

This tensioactive **improves foaming** and provides a **creamy touch to your foaming products** "homemade". It gently cleanses, without taking off the skin's protective film. It has an acidic pH and thickens mixtures.

01952 100 ml 2.80 €

TENSIOACTIVE SCI

Very well tolerated by the skin, this solid tensioactive allows you to **soften your solid shampoo** formulas whilst creating a rich and **creamy foam**.

02626 50 g 1.95 € 02627 500 g 11.50 €

TENSIOACTIVE SLSA

Derived from coconut oil, this tensioactive produces **excellent foam**, even in hard water and in the presence of oil. It is ideal for using in **shower creams, bath bombs**, and also in **bars of shower wash and shampoo bars**.

01868 100 g 4.20 €

GENTLE MOUSSE BASE

This blend of **gentle surface active agents** combines well with Coconut to make gentle shower gels, shampoos, bubble baths, and facial cleansers.

01263 250 ml 4.90 € 01530 1 L 12.90 €

THICK MOUSSE BASE

Derived from fatty alcohols, coconut oil and corn sugars, this **ultra-gentle** surface active agent is used to make **gentle cleansers, thickening them nicely**.

01261 250 ml 3.90 € 01531 1 L 9.90 €

SUGAR FOAM

Derived from corn sugar and coconut oil, this gentle product is an **excellent cleanser and produces a satisfying mousse**. It can be used to make **thick and gentle shower gels and shampoos**.

01260 250 ml 4.90 €

MULTI-USE AGENTS

THESE MULTI-FUNCTIONAL PRODUCTS ARE ABSOLUTELY ESSENTIAL TO HAVE STORED IN YOUR KITCHEN CUPBOARD FOR AN ECO-FRIENDLY APPROACH TO HOUSEHOLD CLEANING.

BICARBONATE AND CITRIC ACID CAN ALSO BE USED TO ADJUST pH LEVELS IN COSMETICS AND IN MAKING BATH BOMBS.

CITRIC ACID

This descaling agent is used as a **household cleaning product**. It can also be used to balance the pH of some products. It is also an essential ingredient in **making bath bombs**.

00854 250 g 2.50 €

BICARBONATE OF SODA

This **household cleaning product** is extremely eco-friendly, but can also be used to **whiten and clean teeth** or to make bath bombs and deodorants.

02210 500 g 2.50 €

SODA CRYSTALS

These crystals **remove grease and stains** and are a **multi-use, environmentally friendly household cleaner**. Used for laundry, the dishes, pipe maintenance and **cleaning or scouring** surfaces, etc.

01869 500 g 2.50 €

SODIUM PERCARBONATE

This **environmentally friendly, household cleaner** has **degreasing, whitening and disinfectant properties**. It is mainly used as a laundry pre-treatment and to **remove mould and damp stains** in the kitchen, bathroom and on balconies, etc.

01881 500 g 2.90 €

OTHER INGREDIENTS

THESE BASE INGREDIENTS ARE NOTABLY USED AS EMOLLIENTS, TEXTURISING AGENTS OR PH-CORRECTORS IN MAKING YOUR COSMETIC PRODUCTS.

CALCIUM CARBONATE

This multi-purpose product is known for its **gentle abrasive action on teeth** and for its **thickening and opacifying action in creams**.

01020 250 g 1.50 €

CAPRYLIN

These vegetable-based triglycerides are in fact **extremely fine and easily-absorbed** oil base used to make 'dry' oils as well as non-greasy emulsions.

01668 250 ml 3.90 €

COCO SILICONE

This emollient of natural origin is used in the preparation of creams and milky creams to bring an evanescent touch and a perfect glide, as well as in "homemade" hair cares to sheathe and bring shine to hair.

01802 100 ml 4.90 € 01847 250 ml 9.50 €

DICAPRYLYL CARBONATE

This emollient of plant origin is fine and **velvety to the touch and easily absorbed**. It is an excellent substitute for paraffin and synthetic silicon oils. It is **non-oily** and lifts the greasy feel of vegetable oils.

01953 100 ml 5.50 €

DRY TOUCH

This plant-derived **emollient** is used in its oily phase for creating **dry oils** or to lend an **easily absorbable** aspect to your 'home-made' creams and milks. **Evanescence and very dry**, this is a professional ingredient!

02373 100 ml 4.90 €

LIMEWATER

Essential ingredient for making oleo-limestone liniments to prepare your cleansing and make-up removers cares.

00858 250 ml 3.20 € 01616 1 L 7.50 €

PLANT STEARIC ACID

An excellent **consistency factor**, it makes emulsions smooth and rich. It can be used in the preparation of «butters» based on vegetable oils. It is also very useful in creating **candles and soaps**.

00901 250 g 2.50 €

VEGETABLE GLYCERIN

This very pure and very high quality vegetable glycerin is used as an asset to protect skin and hair from dehydration but also to soften and smooth skin and hair by its emollient action.

00851 250 ml 3.20 €
01175 1 L 7.50 € 02900 2.5 L 13.50 €

SULFATED CASTOR OIL

This is a **water-soluble oil**, meaning it dissolves completely upon contact with water making it the perfect ingredient for creating 'micellar water' or for enriching shower gels and shampoo with oil.

01613 100 ml 3.50 € 01614 250 ml 5.50 €

ISOPROPYL MYRISTATE

Essential in creating your **perfume compositions for use in fragrance diffusers**, this fine, easily-absorbed oil base can also be included in your 'home-made' cosmetics for an extremely **soft texture** with no sticky residue.

00179 250 ml 4.50 €

PLANT-BASED LANOLIN SUBSTITUTE

A must have to **create your home-made balms and glosses** and to make your creams feel smooth and increase their **protective and anti-ageing capacity**.

00856 50 ml 5.50 € 01505 100 ml 8.50 €

MAGNESIUM STEARATE

An agent that improves feel and texture, magnesium stearate **improves the staying power of make-up and makes it last longer**. It also **binds and makes products opaque**, and is very useful in making **bath salts and bombs solid**.

01954 100 g 3.50 €

🌿 **Essential oils good use and precautions for use which **must be read before using the essential oils****

- **Use essential oils with care and moderation.** Essential oils are powerful.
- Essential oils mustn't be applied on the eyes, the eye contours or the ears. In the event of a contact, widely apply a vegetable oil, then rinse with water. Immediately consult a doctor. Essential oils must imperatively be diluted in vegetable oil for a use on mucosal area.
- Always keep essential oils out of sight and away from children. For their safety, never remove the dropper cap of essential oils bottles.
- Certain oils can be irritating or particularly sensitizing **The majority of essential oils are used diluted in a vegetable oil when applied on the skin.** We recommend you to always make a skin tolerance test in the elbow crease minimum 48 hours before any pure or diluted use on the skin. If you see a reaction (redness, irritation, tingling...), do not use the mixture.
- Angelica, Bergamot, Celery, Lemon, Lime, Khella, Lovage, Mandarin, Orange, Blood Orange, Grapefruit, Tagetes, Aromatic Verbena essential oils and the oily Hypericum macerate can be photosensitizer. After using these oils, don't expose yourself to the sun or UVs during 6 hours.

Some essential oils can be irritating, particularly sensitizing or may have a certain toxicity at high doses or after long-term use. Yarrow, Garlic, Ajowan, Bitter almond, Dill, Green anise, Holy basil, Tropical basil, Copahu balm, Bay St Thomas, Yellow birch, Ceylon cinnamon (bark and leaves), China cinnamon, Carvi, Atlas cedar, Himalayan cedar, Cumin, Turmeric, Cypress Provence / Mediterranean, Tarragon, Cryptone eucalyptus, Globulus eucalyptus, Menthol eucalyptus, Sweet fennel, Gautheria Procumbens, Gautheria wintergreen, Clove (clove and leaves), Italian helichrysum, Inula Graveolens, Khella, Lantana, Laurel, Lemongrass, Mastic, Lemon litsea, Lovage, Melissa, Wild mint, Pepper mint, Green mint, Hpericum, Nutmeg, Compact oregano, Kaliteri oregano, Common oregano, Parsley, Scotch pine, Rosemary camphor, Rosemary verbenon, Balsam fir, Silver fir, Savory, Common sage aromatic oil, Wild thyme, Tagetes, Annual tansy, Tupentine, Satureoides thyme, Thymol thyme, Aromatic verbena, Ylang-Ylang.

For more information on the specific precautions for every essential oil, consult their respective sheet available on our website www.aroma-zone.com.

- In general, **we advise pregnant or breast-feeding women, epileptic persons, hypersensitive persons or presenting an hormone dependant cancer and generally persons with health issues, against using essential oils. Except with a medical opinion, do not use essential oils on babies and children under the age of 3. For children above the age of 3, use them exclusively under a medical opinion.**
- Essential oils injections are forbidden.
- In case of respiratory allergies or asthma, avoid directly inhaling essential oils diffusions.
- Never associate essential oils and medical treatments without a medical opinion.
- Consult a doctor for any therapeutic indication or oral treatment. Essential oils must be diluted on a support like oil, honey, sugar or neutral tablet for an oral use.
- In case of accidental ingestion, swallow several spoons of vegetable oils in order to dilute the essential oil, contact a poison-control centre and consult a doctor .
- When in doubts, do not hesitate to seek advice to your doctor.

Information on essential oils available on our website, on our catalogue and our leaflet are provided for information purposes. It represents a synthesis of our reading of different work of reference about aromatherapy. They do not in any way constitute medical information, nor engage our responsibility.

🌿 **The home-made cosmetics good manufacturing practices **To read before any preparation****

1 - Before the realization of your cosmetic:

Make sure you respect the rules of hygiene:

- Adopt a clean and covering outfit (prefer wearing charlottes and disposable gowns).
- Wash and dry hands thoroughly or wear clean gloves.
- Disinfect the utensils and containers that you will use: either by passing them 10 minutes in boiling water (excluding plastic containers and pumps) and then drying them thoroughly with a clean and dry cloth, or by rinsing them with alcohol at 60-70 ° (excluding gloss containers, small bubble jar, mini-powder, flat boxes and compacts not resistant to alcohol: cleaning with hot water not exceeding 75 ° C) and then allowing them to air dry.

Prepare your work plan:

- Your work surface must be clean and uncluttered, keep away food and beverages.
- Make sure you have the necessary ingredients and their expiry date is not exceeded.

Prepare the necessary documents for the realization of your product:

- Cosmetic recipe, traceability form to note the ingredients, the batches used, the weighings carried out as well as the date of manufacture.

2 - During manufacture:

- Follow the recipe carefully, respecting the indicated dosages, complete your traceability form.
- Use proven preservatives such as Cosgard Aroma-Zone (respect the dosage).
- Avoid contacts of your hands with the preparation or the ingredients.
- Important heat of some ingredients are sometimes needed. Precaution of use must be respected to avoid burnings and projections. It is advised to wear protective glasses.
- In the case of preparations containing alcohol: handle flammable alcohol away from any flame and any incandescent source. Handle alcohol in a ventilated room.

3 - After manufacture:

- Check the correct dispersion of ingredients, the homogeneous, without agglomeration or phase shift appearance.
- Do not hesitate to throw your preparation to the least formation of mould or the least appearance of an unpleasant odour, change of aspect...
- Label your product carefully with the name of the preparation, date of manufacture, composition and date of optimal use.
- Store your product in suitable conditions out of the reach of children.

4 - Before using your product:

- Some ingredients can be allergenic : always make a preliminary application test of your preparation in the elbow crease on approx. 1cm² during 48 hours to check that no reactions (redness, respiratory problems, tingling...) appear before using your preparations.

The hand-made cosmetic recipes available on our website and documentations are examples of how to use our ingredients and we deny any liability in relation to them. These are copyrighted original works. They can't be used for a commercial purpose.
