

AROMA ZONE

EXPERT NATUREL EN SOINS & BEAUTÉ

FEBRUARY 2020 EDITION

The family adventure Aroma-Zone was born in 2000, inspired by *our admiration of the plants' power* and all of the treasures nature can give us.

True pioneer, Aroma-Zone was one of the first aromatherapy's information website and an essential oils online seller since 1999. Years later the idea of a crazy bet germinated in our Provençal premises: to come up with all that you need to *manufacture your own healthy, efficient and 100% natural cosmetics!* And you are a growing number to subscribe to this concept.

Since the beginning, we are willing to propose *the best quality at a better price*, establishing lasting close ties with a network of devoted producers, in France and all over the world. Today, thanks to your *trust*, Aroma-Zone's adventure keeps on glowing every day and keeps on making available *the most beautiful natural extracts* for all, in a respectful approach of human beings and the planet.

Thanks !

Valérie, Anne et Pierre Vausselein, founders

Our commitments

1. Our essential oils are 100% pure. They are carefully selected to meet strict specifications. We carry out chemical and physical analyses of each batch (refraction index, chirality, density, etc) and a chromatography test, so we can assure you of the botanical identity and biochemical characteristics of all our essential oils (EOBBD : Essential Oils Botanically and Biochemically Defined).

2. We only use 100% natural products, with no added preservatives or synthetic fragrances. All our products are guided by strict specifications and supervised by our Quality laboratory.

3. We are working hand in hand with producers from all over the world. We are remunerating them at a fair price, we nurture sustainable and fair trade, and support traditional production chains.

4. We are committed to the animals protection organization One Voice. No product is tested on animals et no animal product or sub-product is used in the making of our products (except products from beehives, mare's milk, donkey's milk and silk proteins). We always check the animals' living conditions and ensure that the method of obtaining the product does not endanger the animals' welfare.

5. We are favouring ingredients from ecological agriculture and certified organic to preserve soils, air and water quality as much as the producers' health. Our ingredients are naturals and biodegradables.

6. We favor local supplies to limit transportation impact on the environment and the use of recycled and recyclable packaging, guaranteed without bisphenol and phthalates and locally produced.

7. To protect the contents of your packages, we use recycled crumpled paper and carton format to maximum content to minimize carbon emissions related to the transport of the package.

TENSIOACTIVES

A RANGE OF VEGETABLE ORIGIN TENSIOACTIVES TO MAKE YOUR LIQUID SOAPS, SHOWER GELS, LIQUID VERY SWEET AND SOLID SHAMPOOS.

FOAMING BASE SOFTNESS *

This mixture of **surfactants of vegetable origin and without sulphates** is used in synergy with the co-surfactant Coconut Sweetness to formulate **shower gels, shampoos, bubble baths and very mild face cleansers**..

01263 250 ml 4.90 € 01530 1 L 12.90 €

COCONUT SWEETNESS *

Derived from coconut oil, this **lipid-replenishing** active ingredient is used for its **softening and moisturising properties** in **shower gels and shampoos designed for sensitive skin**.

01262 250 ml 5.50 €

BABASSU MOUSSE *

Derived from Babassu oil, this cosurfactant is **rich in unsaturated fatty acids and sterols**. It protects skin from harsh external elements, **lathers into a rich, creamy foam, restores softness to hair, leaving locks easy to style**.

01265 100 ml 2.90 € 01264 250 ml 4.90 €

SUGAR MOUSSE *

Derived from corn sugar and of coconut oil, this **sulphate-free** surfactant has **good foaming and cleansing properties**. It is used to formulate **shower gels and mild and smooth shampoos**.

01260 250 ml 4.90 €

FOAM PASTE

Perfect for **making fun and sensory products**, Foam Paste is a surfactant of plant origin and sulfate free. Solid shampoos, cupcakes, creamy or shower gels and shampoos, **let your creativity express itself!**

04032 200 ml 3.90 €

SODIUM COCO SULFATE *

This tensioactive is **the key ingredient for making your solid shampoos**. It foams particularly well, making it pleasant to use and meaning vegetable butters or oils can be included in solid shampoos.

03035 50 g 1.50 € 02625 500 g 6.90 €

SODIUM LAUROYL SARCOSINATE *

This tensioactive **improves foaming** and provides a **creamy touch to your foaming products "home-made"**. It gently cleanses, without taking off the skin's protective film. It has an acidic pH and thickens mixtures.

01952 100 ml 2.80 €

SCI SURFACTANT *

Very well tolerated by the skin, this **solid tensioactive** allows you to **soften your solid shampoo formulas** whilst creating a rich and creamy foam.

02626 50 g 1.95 € 02627 500 g 9.90 €

SURFACTANT SLISA *

Derived from coconut oil, this tensioactive produces **excellent foam**, even in hard water and in the presence of oil. It is ideal for using in **shower creams, bath bombs**, and also in **bars of shower wash and shampoo bars**.

01868 100 g 4.20 €

OTHER INGREDIENTS

THESE BASE INGREDIENTS ARE NOTABLY USED AS EMOLLIENTS, TEXTURISING AGENTS OR PH-CORRECTORS IN MAKING YOUR COSMETIC PRODUCTS.

CITRIC ACID*

This descaling agent is used as a **household cleaning product**. It can also be used to balance the pH of some products. It is also an essential ingredient in **making bath bombs**.

00854 250 g 2.50 € 04123 500 g 3.90 €

PLANT STEARIC ACID

An excellent **consistency factor**, it makes emulsions **smooth and rich**. It can be used in the preparation of «butters» based on vegetable oils. It is also very useful in creating **candles and soaps**.

00901 250 g 2.50 €

BAKING SODA

This **household cleaning product** is extremely eco-friendly, but can also be used to **whiten and clean teeth** or to make **bath bombs and deodorants**.

00855 250 g 1.90 € 04122 500 g 2.50 €

CAPRYLIN

These vegetable-based triglycerides are **in fact extremely fine and easily-absorbed** oil base used to make 'dry' oils as well as non-greasy emulsions.

01668 250 ml 3.90 €

CALCIUM CARBONATE

This multi-purpose product is known for its **gentle abrasive action on teeth** and for its **thickening and opacifying action in creams**.

01020 250 g 1.75 € 04124 500 g 2.50 €

COCO SILICONE

This emollient of natural origin is used in the preparation of creams and milky creams to bring an **evanescent touch** and a perfect glide, as well as in "homemade" hair cares to sheathe and bring shineness to hair.

01802 100 ml 4.90 € 01847 250 ml 9.50 €

DICAPRYLYL CARBONATE

This emollient of plant origin is fine and **velvety to the touch and easily absorbed**. It is an excellent substitute for paraffin and synthetic silicon oils. It is **non-oily** and lifts the greasy feel of vegetable oils.

01953 100 ml 5.50 €

DRY TOUCH *

This plant-derived **emollient** is used in its oily phase for creating **dry oils** or to lend an **easily absorbable** aspect to your 'home-made' creams and milks. **Evanescent and very dry**, this is a professional ingredient!

02373 100 ml 4.90 €

LIMEWATER

Essential ingredient for making oleo-limestone liniments to prepare your cleansing and make-up removers cares.

00858 250 ml 3.20 € 01616 1 L 7.50 €

VEGETABLE GLYCERIN

This vegetable glycerine is used as an active ingredient to **protect skin and hair from dehydration**, but also to soften skin and smooth hair by its emollient action.

00851 250 ml 3.20 € 01175 1 L 7.50 € 02900 2.5 L 13.50 €

ORGANIC VEGETABLE GLYCERIN WITHOUT PALM

This vegetable glycerine **guaranteed without palm derivatives and certified organic** is an active incorporated in your preparations to bring **softness and hydration** to skin and hair. It **moisturises your lips**, gives excellent shine, with an irresistible sweetness.

04055 100 ml 3.50 € 04056 250 ml 5.90 € 04057 1 L 17.50 €

SULPHATED CASTOR OIL *

This is a **water-soluble oil**, meaning it dissolves completely upon contact with water making it the perfect ingredient for creating 'micellar water' or for enriching shower gels and shampoo with oil.

01613 100 ml 3.50 € 01614 250 ml 5.50 €

ISOPROPYL MYRISTATE

Essential in creating your perfume **compositions for use in fragrance diffusers**, this fine, easily-absorbed oil base can also be included in your 'home-made' cosmetics for an **extremely soft texture** with no sticky residue.

01779 250 ml 4.50 €

MAGNESIUM STEARATE

An agent that improves feel and texture, magnesium stearate **improves the staying power of make-up and makes it last longer**. It also **binds and makes** products opaque, and is very useful in making **bath salts and bombs solid**.

01954 100 g 3.50 €

PLANT-BASED LANOLIN SUBSTITUTE

A must have to **create your home-made balms and glosses** and to make your creams feel smooth and increase their **protective and anti-ageing capacity**.

00856 50 ml 5.50 € 01505 100 ml 8.50 €

ORDER FORM Aroma-Zone:

[illegible]

Order tax inclusive total

This catalog is published by the company Hyteck Aroma-Zone (hereinafter referred to as "Aroma-Zone"), SA with a capital of 60980 Euros, whose registered office is located at 25 rue de l'Ecole de Médecine, registered in the Register Paris Trade and Companies under number 334 806 502.

This catalog enables Aroma-Zone to offer for sale essential oils, cosmetic ingredients, cosmetics, empty containers and accessories manufactured by and / or for Aroma-Zone (hereinafter referred to as "Products") to Internet users browsing the website. Site (hereinafter referred to as "Users").

The User who has validated an order will be called "Customer". The rights and obligations of the User necessarily apply to the Customer. Any order for a Product offered on the catalog requires consultation and express acceptance of these terms and conditions of sale and withdrawal.

ARTICLE 1: OBJECT

The purpose of these general conditions of sale is to define, exclusively on the basis of the relations they establish, the rights and obligations of the Parties resulting from the sale of the Products offered on the catalog. They regulate all the necessary steps for placing orders and ensure the follow-ups between the Parties. These conditions apply to the exclusion of all other documents.

PRICE

Prices are quoted in Euros and are valid for European Union territories excluding DOM and TOM. They take into account any reductions as well as French VAT, applicable on the day of the order.

Any order placed and delivered outside the European Union and the DOM and TOM will be billed without VAT and may be subject to taxes, customs duties and other related costs that are imposed when the package reaches its destination. These additional costs are the charge of the Customer and are his responsibilities. Aroma-Zone reserves the right to modify its prices at any time, the reference price being that appearing on the website www.aroma-zone.com the day of the order. Prices do not include shipping costs that will be charged extra or offered depending on the amount of the order and the country of delivery according to the table on the order form. Aroma-Zone has a loyalty program whose terms and conditions are detailed on www.aroma-zone.com. The customer declares to accept the terms and conditions of the Aroma-Zone loyalty program as long as he accepts the Aroma-Zone terms and conditions.

GEOGRAPHICAL AREA

The mail order of products is reserved for buyers who live in France metropolitan and the European Union.

REGISTRATION AND VALIDATION OF ORDERS

Order registration

If the User wishes to place an order, he will choose the different Products with which he is interested, and will use the order form proposed in this catalog. At the request of the customer, an invoice will be sent.

Payment terms

Orders are payable in € by French checks or by French or international bank card.

DELIVERY

Deadlines and shipping methods

Your orders are processed as soon as possible by the Customer Service and the Expeditions Service, open from Monday to Friday inclusive. Orders are prepared as soon as validated and entered by the customer service on your order and payment.

Delivery time in France metropolitan

Shipments take place within 48 hours after the validation of your order. After delivery by our Shipping Department, your order is delivered in 2 to 3 days by Coliposte (colissimo followed). These deadlines are in working days, excluding postal routing problem. Your order will be delivered by COLIPOSTE or FEDEX depending on the country of destination.

Delayed / no delivery

Loss of parcels during transport

Colissimo and FedEx are very reliable services. However, it may be, as in any shipment, that there may be a delay in delivery or the package goes astray. In the case of a delivery delay of more than 7 days, the Customer must inform the Aroma-Zone customer service who will send the information to the Post Office or Fedex to trigger the opening of an investigation. This investigation can last up to 21 days from its opening. If during this period, the package is found, it will be rerouted immediately to the Customer's home (in most cases). If on the other hand the parcel is not found at the end of the period of 21 days of investigation, Colissimo or FedEx considers the parcel as lost. In this case, Aroma-Zone will return to the Customer a replacement package, at his expense. If the lost product (s) were no longer available at that time, Aroma-Zone would reimburse the Customer for the amount of these products.

Order cancellation

In case of late delivery of more than 7 days from the expected delivery date, the Customer may cancel the order by contacting Aroma-Zone Customer Service by email or phone.

Abnormalities

Any anomaly concerning the delivery (damage, open parcel, damaged parcel, broken products ...) must imperatively be indicated on the delivery form in the form of "handwritten reserves", accompanied by the signature of the Customer. The Customer must immediately report the anomaly to Aroma-Zone Customer Service for a claim to be made to Coliposte or FedEx. Aroma-Zone will return the replacement product (s) to the Customer at its expense.

TERMS OF SALES

RETURN AND RIGHT OF WITHDRAWAL

Conditions of withdrawal

The Customer has a right of withdrawal of fourteen (14) days from receipt of the entire order without necessarily giving reasons.

To exercise the right of withdrawal, the customer must notify his decision to withdraw his order by a written declaration without ambiguity by specifying his name and first name, e-mail, address, number and date of order:

- by internet: www.aroma-zone.com/retraction
- or by mail: Hyteck Aroma-Zone - 576 chemin du Moulin Rouge - 84470 Chateaufort-de-Gadagne - France

Refund

In the event of withdrawal of the Customer, Aroma-Zone will refund payments received from the Customer without undue delay and, in any event, no later than fourteen (14) days from the day Aroma-Zone is informed of the withdrawal decision of the customer.

In case of withdrawal of the Customer on the entire order, Aroma-Zone will refund all payments received from the Customer for this order.

In case of withdrawal of the Customer on part of the Products of the order, Aroma-Zone will refund the amount of returned Products. The refund will be made by the same means of payment that the Customer has used for his order or by bank transfer. Aroma-Zone may defer this refund until receipt and verification of the Products.

Return of products

The Customer must return the Products at its expense no later than fourteen (14) days after communicating its decision to retract. Returned products must be unopened, complete and undamaged. The return of parcels must be done at the following address: Aroma-Zone - 576 chemin du Moulin Rouge - 84470 Chateaufort-de-Gadagne - France

INTELLECTUAL PROPERTY

All publication elements of the AROMA-ZONE Site are and remain the exclusive property of Hyteck Aroma-Zone. No one is authorized to reproduce, exploit or use in any way whatsoever, even partially, elements of the Aroma-Zone website or publication.

DATA WITH PERSONAL CHARACTER

In the context of order by correspondence the Customer will be required to communicate to Aroma-Zone personal data that may be subject to computer processing. If this is the case, the buyer may exercise his right of access, modification, deletion and rectification with Aroma-Zone. The Aroma-Zone file is systematically declared to the CNIL.

Only data that allows Aroma-Zone to manage all aspects of the order is requested from the customer.

HOW DOES AROMA-ZONE USE THESE DATA?

- Customer data: last name, first name, email address, billing and delivery address, telephone number
- Their use: these information allows our customer service to help you find your cart, choose the delivery method, pay your order, prepare your packages, ship them, inform you when shipping or availability in Click & Collect item, gather your opinion about products purchased or about your buying experience.
- Shelf life: order data are kept for 10 years.

The data concerning the baskets are kept for 3 months, the data sent to our service providers for delivery are kept for 12 months.

DISPUTES

This contract is subject to French law. Aroma-Zone cannot be held responsible for damage of any kind, whether material or immaterial or bodily, which could result from the misuse of the products marketed.

In case of difficulties in the application of this contract, the Customer has the possibility, before any action in court, to seek an amicable solution with the help of a professional association of the branch, a consumer association or any other advice of his choice.

Complaints or disputes will always be received with attentive benevolence, good faith always being presumed in the person who takes the trouble to expose his situation. In case of dispute, the Customer will first contact the company to obtain an amicable solution.

In the absence of an amicable agreement between the Parties, the dispute will be submitted to the French courts, except contrary legal provisions.

Essential oils good use and precautions for use which **must be read before using the essential oils**

- **Use essential oils with care and moderation.** Essential oils are powerful.

• Essential oils mustn't be applied on the eyes, the eye contours or the ears. In the event of a contact, widely apply a vegetable oil, then rinse with water. Immediately consult a doctor. Essential oils must imperatively be diluted in vegetable oil for a use on mucosal area.

- Always keep essential oils out of sight and away from children. For their safety, never remove the dropper cap of essential oils bottles.

• Certain oils can be irritating or particularly sensitizing **The majority of essential oils are used diluted in a vegetable oil when applied on the skin.** We recommend you to always make a skin tolerance test in the elbow crease minimum 48 hours before any pure or diluted use on the skin. If you see a reaction (redness, irritation, tingling...), do not use the mixture.

- Angelica, Bergamot, Celery, Lemon, Lime, Khella, Lovage, Mandarin, Orange, Blood Orange, Grapefruit, Tagetes, Aromatic Verbena essential oils and the oily Hypericum macerate can be photosensitizer. After using these oils, don't expose yourself to the sun or UVs during 6 hours.

Some essential oils can be irritating, particularly sensitizing or may have a certain toxicity at high doses or after long-term use. Yarrow, Garlic, Ajowan, Bitter almond, Dill, Green anise, Holy basil, Tropical basil, Copahu balm, Bay St Thomas, Yellow birch, Ceylon cinnamon (bark and leaves), China cinnamon, Carvi, Atlas cedar, Himalayan cedar, Cumin, Tumeric, Cypress Provence / Mediterranean, Tarragon, Cryptone eucalyptus, Globulus eucalyptus, Menthol eucalyptus, Sweet fennel, Gaultheria Procumbens, Gaultheria wintergreen, Clove (clove and leaves), Italian helichrysum, Inula Graveolens, Khella, Lantana, Laurel, Lemongrass, Mastic, Lemon litsea, Lovage, Melissa, Wild mint, Pepper mint, Green mint, Hpericum, Nutmeg, Compact oregano, Kaliteri oregano, Common oregano, Parsley, Scotch pine, Rosemary camphor, Rosemary verbenon, Balsam fir, Silver fir, Savory, Common sage aromatic oil, Wild thyme, Tagetes, Annual tansy, Tupertine, Satureoides thyme, Thymol thyme, Aromatic verbena, Ylang-Ylang.

For more information on the specific precautions for every essential oil, consult their respective sheet available on our website www.aroma-zone.com.

In general, we advise pregnant or breast-feeding women, epileptic persons, hypersensitive persons or presenting an hormone dependant cancer and generally persons with health issues, against using essential oils. Except with a medical opinion, do not use essential oils on babies and children under the age of 3. For children above the age of 3, use them exclusively under a medical opinion.

- Essential oils injections are forbidden.

- In case of respiratory allergies or asthma, avoid directly inhaling essential oils diffusions.

- Never associate essential oils and medical treatments without a medical opinion.

- Consult a doctor for any therapeutic indication or oral treatment. Essential oils must be diluted on a support like oil, honey, sugar or neutral tablet for an oral use.

- In case of accidental ingestion, swallow several spoons of vegetable oils in order to dilute the essential oil, contact a poison-control centre and consult a doctor .

- When in doubts, do not hesitate to seek advice to your doctor.

Information on essential oils available on our website, on our catalogue and our leaflet are provided for information purposes. It represents a synthesis of our reading of different work of reference about aromatherapy.

They do not in any way constitute medical information, nor engage our responsibility.

The home-made cosmetics good manufacturing practices **To read before any preparation**

1 - Before the realization of your cosmetic:

Make sure you respect the rules of hygiene:

- Adopt a clean and covering outfit (prefer wearing charlottes and disposable gowns).
- Wash and dry hands thoroughly or wear clean gloves.
- Disinfect the utensils and containers that you will use: either by passing them 10 minutes in boiling water (excluding plastic containers and pumps) and then drying them thoroughly with a clean and dry cloth, or by rinsing them with alcohol at 60-70 ° (excluding gloss containers, small bubble jar, mini-powder, flat boxes and compacts not resistant to alcohol: cleaning with hot water not exceeding 75 ° C) and then allowing them to air dry.

Prepare your work plan:

- Your work surface must be clean and uncluttered, keep away food and beverages.
- Make sure you have the necessary ingredients and their expiry date is not exceeded.

Prepare the necessary documents for the realization of your product:

- Cosmetic recipe, traceability form to note the ingredients, the batches used, the weighings carried out as well as the date of manufacture.

2 - During manufacture:

- Follow the recipe carefully, respecting the indicated dosages, complete your traceability form.
- Use proven preservatives such as Cosgard Aroma-Zone (respect the dosage).
- Avoid contacts of your hands with the preparation or the ingredients.
- Important heat of some ingredients are sometimes needed. Precaution of use must be respected to avoid burnings and projections. It is advised to wear protective glasses.
- In the case of preparations containing alcohol: handle flammable alcohol away from any flame and any incandescent source. Handle alcohol in a ventilated room.

3 - After manufacture:

- Check the correct dispersion of ingredients, the homogeneous, without agglomeration or phase shift appearance.
- Do not hesitate to throw your preparation to the least formation of mould or the least appearance of an unpleasant odour, change of aspect...
- Label your product carefully with the name of the preparation, date of manufacture, composition and date of optimal use.
- Store your product in suitable conditions out of the reach of children.

4 - Before using your product:

- Some ingredients can be allergenic : always make a preliminary application test of your preparation in the elbow crease on approx. 1cm² during 48 hours to check that no reactions (redness, respiratory problems, tingling...) appear before using your preparations.

The hand-made cosmetic recipes available on our website and documentations are examples of how to use our ingredients and we deny any liability in relation to them. These are copyrighted original works. They can't be used for a commercial purpose.
