

AROMA ZONE

EXPERT NATUREL EN SOINS & BEAUTÉ

SPRING 2021 EDITION

The family adventure Aroma-Zone was born in 2000, inspired by *our admiration of the plants' power* and all of the treasures nature can give us.

Pioneer and truly innovator, Aroma-Zone above all has been one of the first websites of information about aromatherapy and selling of essential oils products lines since 1999. Years later the idea of a crazy bet germinated in our Provençal premises: to come up with all that you need to *manufacture your own healthy, efficient and 100% natural cosmetics!* And you are a growing number to subscribe to this concept.

Since the beginning, we are willing to propose *the best quality at a better price*, establishing lasting close ties with a network of devoted producers, in France and all over the world. Today, thanks to your *trust*, Aroma-Zone's adventure keeps on glowing every day and keeps on making available *the most beautiful natural extracts* for all, in a respectful approach of human beings and the planet.

Thanks!

Valérie, Anne et Pierre Vausselin, founders

Our commitments

- 1.** Our essential oils are **100% pure**. They are carefully selected to meet strict specifications. We carry out chemical and physical analyses of each batch (refraction index, chirality, density, etc) and a chromatography test, so we can assure you of the botanical identity and biochemical characteristics of all our essential oils (EOBBD: Essential Oils Botanically and Biochemically Defined).
- 2.** We only use **100% natural products, with no added preservatives or synthetic fragrances**. All our products are guided by strict specifications and supervised by our Quality laboratory.
- 3.** We are working hand in hand with producers from all over the world. We pay them at a fair price, and privilege a **durable and equitable commerce** and bring our support to the traditional production sectors.
- 4.** We are engaged with the **One Voice association for animal protection**. No product is tested on animals et no animal product or sub-product is used in the making of our products (except products from beehives, mare's milk, donkey's milk and silk proteins). We always check the animals' living conditions and ensure that the method of obtaining the product does not endanger the animals' welfare.
- 5.** We are favouring **ingredients from ecological agriculture and certified organic** to preserve soils, air and water quality as much as the producers' health. Our ingredients are naturals and biodegradables.
- 6.** We favor **local supplies to limit transportation impact on the environment** and the use of recycled and recyclable packaging, guaranteed without bisphenol and phthalates and locally produced.
- 7.** For keeping the content of your package, we utilize **recycled crumpled paper** and adapt the carton format to its content at maximum for **to minimize the carbonic emissions** related to the packages transport.

ESSENTIAL OILS, THE AROMA-ZONE QUALITY

The vast majority of our essential oils comes from :

- wild plants, pledged to be the best quality possible for an essential oil due to the plant's growth in its natural biotype without Man's intervention offers the most intact essential oil,
- plants of «**BIO**» certified culture from independent organisms,
- plants of **ecological culture**, without use of chemical products, considering the «**BIO**» certification is not accessible or too expensive.

The majority of our essential oils are extracted from **fresh plants at the place of harvesting** ; this allows us to extract whole and fresh essential oils from plants which have not been damaged by transport conditions or the haulage time.

- **Very powerful essential oil**, which can present a certain toxicity at high dose or in the long term TO be used with caution and for short periods.
- Essential oil that can be **photosensitizing**. Do not expose skin to sunshine after use.
- This essential oil can be **dermo-caustic** (irritating to the skin) and/or **prone to cause allergic reactions**. TO be used very diluted in a vegetable oil for a cutaneous application and always carry out a test in the fold of the elbow before use.

Find on our website all the data of traceability and quality of our batches of essential oils :

- Origin
- Date obtained
- Culture type
- Chemotype
- Main components by chromatographic analysis

ORGANIC GARLIC

If you live in the French overseas departments and territories, this order form isn't valid: contact us by email or by phone to provide us the elements.

This catalog is published by Hyteck Aromazone (hereinafter referred to as "Aroma-Zone"), a public limited company with a capital of 60980 Euros, whose registered office is located at 25 rue de l'Ecole de Médecine, and which is registered in the Paris Trade and Companies Register under number 334 806 502

This catalog allows Aroma-Zone to offer essential oils, cosmetic ingredients, cosmetics, empty containers and accessories manufactured by and/or for Aroma-Zone (hereinafter referred to as the "Products") for sale to Internet users browsing the Site (hereinafter referred to as "Users").

The User having validated an order will be called "Customer". The rights and obligations of the User necessarily apply to the Customer. Any order for a Product offered on the catalog requires consultation and express acceptance of these terms and conditions of sale and withdrawal.

ARTICLE 1: OBJECT

The purpose of these general conditions of sale is to define, exclusively on the basis of the relations they establish, the rights and obligations of the Parties resulting from the sale of the Products offered on the catalog. They regulate all the necessary steps for placing orders and ensure the follow-ups between the Parties. These conditions apply to the exclusion of all other documents.

PRICE

Prices are quoted in Euros and are valid for European Union territories excluding DOM and TOM. They take into account any reductions as well as French VAT, applicable on the day of the order.

Any order placed and delivered outside the European Union and the DOM and TOM will be billed without VAT and may be subject to taxes, customs duties and other related costs that are imposed when the package reaches its destination. These additional costs are the charge of the Customer and are his responsibilities.

Aroma-Zone reserves the right to modify its prices at any time, the reference price being that appearing on the website www.aroma-zone.com the day of the order. Prices do not include shipping costs that will be charged extra or offered depending on the amount of the order and the country of delivery according to the table on the order form. Aroma-Zone has a loyalty program whose terms and conditions are detailed on www.aroma-zone.com. The customer declares to accept the terms and conditions of the Aroma-Zone loyalty program as long as he accepts the Aroma-Zone terms and conditions.

GEOGRAPHICAL AREA

The mail order of products is reserved for buyers who live in France metropolitan and the European Union.

REGISTRATION AND VALIDATION OF ORDERS

Order registration

If the User wishes to place an order, he will choose the different Products with which he is interested, and will use the order form proposed in this catalog. At the request of the customer, an invoice will be sent.

Payment terms

Orders are payable in € by French checks or by French or international bank card.

DELIVERY

Deadlines and shipping methods

Your orders are processed as soon as possible by the Customer Service and the Expeditions Service, open from Monday to Friday inclusive.

Orders are prepared as soon as validated and entered by the customer service on your order and payment.

Delivery time in France metropolitan

Shipments take place within 48 hours after the validation of your order.

After delivery by our Shipping Department, your order is delivered in 2 to 3 days by Coliposte (colissimo followed). These deadlines are in working days, excluding postal routing problem. Your order will be delivered by COLIPOSTE or FEDEX depending on the country of destination.

Delayed / no delivery

Loss of parcels during transport

Colissimo and FedEx are very reliable services. However, it may be, as in any shipment, that there may be a delay in delivery or the package goes astray. In the case of a delivery delay of more than 7 days, the Customer must inform the Aroma-Zone customer service who will send the information to the Post Office or Fedex to trigger the opening of an investigation. This investigation can last up to 21 days from its opening. If during this period, the package is found, it will be rerouted immediately to the Customer's home (in most cases). If on the other hand the parcel is not found at the end of the period of 21 days of investigation, Colissimo or FedEx considers the parcel as lost. In this case, Aroma-Zone will return to the Customer a replacement package, at his expense. If the lost product (s) were no longer available at that time, Aroma-Zone would reimburse the Customer for the amount of these products.

Order cancellation

In case of late delivery of more than 7 days from the expected delivery date, the Customer may cancel the order by contacting Aroma-Zone Customer Service by email or phone.

Abnormalities

Any anomaly concerning the delivery (damage, open parcel, damaged parcel, broken products ...) must imperatively be indicated on the delivery form in the form of "handwritten reserves", accompanied by the signature of the Customer. The Customer must immediately report the anomaly to Aroma-Zone Customer Service for a claim to be made to Coliposte or FedEx. Aroma-Zone will return the replacement product (s) to the Customer at its expense.

RETURN AND RIGHT OF WITHDRAWAL

Conditions of withdrawal

The Customer has a right of withdrawal of fourteen (14) days from receipt of the entire order without necessarily giving reasons.

To exercise the right of withdrawal, the customer must notify his decision to withdraw his order by a written declaration without ambiguity by specifying his name and first name, e-mail, address, number and date of order:

- by internet: www.aroma-zone.com/retractation
- or by mail: Hyteck Aroma-Zone - 576 chemin du Moulin Rouge - 84470 Chateaufort-de-Gadagne - France

Refund

In the event of withdrawal of the Customer, Aroma-Zone will refund payments received from the Customer without undue delay and, in any event, no later than fourteen (14) days from the day Aroma-Zone is informed of the withdrawal decision of the customer.

In case of withdrawal of the Customer on the entire order, Aroma-Zone will refund all payments received from the Customer for this order.

In case of withdrawal of the Customer on part of the Products of the order, Aroma-Zone will refund the amount of returned Products. The refund will be made by the same means of payment that the Customer has used for his order or by bank transfer. Aroma-Zone may defer this refund until receipt and verification of the Products.

Return of products

The Customer must return the Products at its expense no later than fourteen (14) days after communicating its decision to retract.

Returned products must be unopened, complete and undamaged.

The return of parcels must be done at the following address: Aroma-Zone - 576 chemin du Moulin Rouge - 84470 Chateaufort-de-Gadagne - France

INTELLECTUAL PROPERTY

DATA WITH PERSONAL CHARACTER

In the context of order by correspondence the Customer will be required to communicate to Aroma-Zone personal data that may be subject to computer processing. If this is the case, the buyer may exercise his right of access, modification, deletion and rectification with Aroma-Zone. The Aroma-Zone file is systematically declared to the CNIL.

Only data that allows Aroma-Zone to manage all aspects of the order is requested from the customer.

HOW DOES AROMA-ZONE USE THESE DATA?

- Customer data: last name, first name, email address, billing and delivery address, telephone number

- Their use: these information allows our customer service to help you find your cart, choose the delivery method, pay your order, prepare your packages, ship them, inform you when shipping or availability in Click & Collect item, gather your opinion about products purchased or about your buying experience.

- Shelf life: order data are kept for 10 years. The data concerning the baskets are kept for 3 months, the data sent to our service providers for delivery are kept for 12 months.

LITIGES

This contract is subject to French law. Aroma-Zone shall not be held liable for any damages of any kind, be it material or immaterial, which may result from the improper use of the products sold.

In case of difficulties in the application of this contract, the Customer has the possibility, before any legal action, to seek an amicable solution in particular with the assistance of a professional association of the branch, an association of consumers or any other council of its choice.

Complaints or disputes will always be received with attentive benevolence, good faith being always presumed in those who take the trouble to explain their situation. In the event of a dispute, the Customer shall first contact the company to obtain an amicable solution.

In the absence of an amicable agreement between the Parties, the dispute will be submitted to the French courts, unless otherwise provided by law.

Precautions and proper use of essential oils **Read before use**

- **Take care when using essential oils and use them in moderation.** Essential oils are very strong.
- Essential oils should not be applied to the eyes, the eye contour, ears, or sensitive areas. In case of contact, apply a plenty of neutral vegetable oil and then rinse with water. Take promptly medical advice.
- Always keep essential oils out of children's view and reach. For their safety, never remove the dropper caps from the essential oil bottle.
- Some oils can be particularly irritating and sensitizing. **Most essential oils must be diluted in a vegetable oil when applied to the skin.** We advise to always carry out a skin tolerance test of the mixture in the bend of the elbow at least 48 hours before using. If you notice a reaction (redness, itching, pimples ...), do not use the mixture.
- **Below oils are photosensitizing** : Angelica, Bergamot, Celery, Lemon, Lime, Khella, Lovage, Mandarin, Orange, Blood Orange, Grapefruit, Lemon Verbena and St. John's wort infused oil. After applying these oils, avoid exposure to the sun or to the UV for 8 to 10 hours.
- **Some essential oils can be particularly irritating or sensitizing or can present a toxicity for a significant dose or for a long time** : Yarrow, Garlic, Ajowan, Bitter Almond, Dill, Anise, Holy Basil, Exotic Basil, Copaiba balsam, West Indian Bay, Cinnamon (bark and leaf), Cassia, Caraway, Atlas Cedarwood, Himalayan Cedarwood, Cumin, Turmeric, Cypress, Tarragon, Eucalyptus cryptone, Eucalyptus globulus, Peppermint Eucalyptus, Sweet Fennel, Wintergreen, Clove (bud and leaf), Helichrysum, Inula, Khella, Lantana, Bay Laurel, Lemongrass, Mastic, May chang, Lovage, Magnolia, Melissa, Coriander, Peppermint, Spearmint, St. John's wort, Nutmeg, Compact Oregano, Green Oregano, Kaliteri Oregano, Common Oregano, Parsley, Scotch Pine, Patagonian Pine, Rosemary camphor, Rosemary verbenone, Damask Rose, Balsam Fir, Silver Fir, Winter Savory, Wild Thyme, Blue Tansy, Turpentine, Thyme borneol, Thyme thymol, Lemon Verbena and Ylang Ylang II and complete. For further informations or specific precautions for each essential oil, check online each product sheet on www.aroma-zone.com.
- As a rule, **pregnant or breastfeeding women, persons suffering from epilepsy or from hormone sensitive cancers, hypersensitive persons, and in general persons suffering from health problems should avoid using essential oils. Unless medically prescribed, do not use essential oils for babies and children under three years old. For children over 3 years old, use essential oils only under medical supervision.**
- Never inject essential oils.
- If you suffer from respiratory allergies or asthma, avoid direct inhalation.
- Do not combine essential oils and medicinal treatments without medical supervision.
- Consult a doctor regarding any therapeutic indication or before taking any essential oil orally. Essential oils should be diluted in food grade oil, honey, sugar or on a neutral pill when taken orally.
- In case of accidental ingestion, rinse the mouth out with food grade vegetable oil. If possible, we advise to swallow 1 to 2 spoonfuls of food grade vegetable oil in order to dilute essential oil. Immediately call a poison center and take promptly medical advice. Do not induce vomiting.
- If you have any doubts or enquiries, do not hesitate to ask your doctor for advice.

The information regarding essential oils that you can find on our website, in our catalogue and in our brochures is for reference only. It is a summary of our interpretations of the various works on aromatherapy we have studied. It should not under any circumstances be considered as a medical piece of advice and we deny any liability in relation to this information.

Best practice for making home-made cosmetics **Read before making any preparations**

Before you start making your own cosmetics, please, read these warnings :

- **Some ingredients may be allergenic** : always perform a preliminary test applying your preparation over about 1 cm² in the crook of your elbow at least 48 hours before using your preparation in order to ensure that no reaction occurs (stinging, redness, itching etc.).
- All cosmetics containing an aqueous phase (water, hydrolate) are **very liable to microbiological contamination**. So, it is essential to manufacture your home-made creams in very hygienic conditions.
- **Sanitize** the utensils and containers before use : either by immersing them in boiling water for 10 minutes (excluding plastic containers and pumps) and drying them thoroughly with a clean and dry cloth, or by rinsing them with pharmacy alcohol (excluding glass containers, little bubble jars, mini powder compacts, flat cases and 40 and 80 ml powder compacts that are not alcohol resistant : sterilize with boiling water) and air-drying them.
- **Wash your hands before** getting started and wear clean gloves.
- **Avoid touching** the preparation and ingredients with your hands.
- **Respect the indicated doses.** When making your product, fill in a traceability book, note the composition of your product and the batches of ingredients used, as well as the manufacturing date.
- Always carefully label and date your preparations and keep them out children's of reach.
- **Store the temperature-sensitive preparations in cool conditions** and use them quickly.
- **Immediately throw away** any preparation when you notice the slightest amount of mould, an objectionable odor or changes in its appearance etc.
- It is sometimes necessary to heat certain raw materials up to a high temperature. The precautions for use must be respected to avoid burns and spitting. It is advisable to wear eye protection.

The home-made cosmetic recipes available on our website and in our documents are examples of how to use our ingredients ; we deny any liability in relation to these examples. They are original works protected by copyright. They may not be used for commercial purposes without a previous agreement that imposes limitations.
